**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am extremely concerned about Congressional plans to dismantle elements of the 1996 Telecommunications Act, an action that would force thousands of users, perhaps millions, to have limited ISP voices. I use Sonic, a fabulous local company, for both my landline and internet service. I rely on their good service for my livelihood, as I am a full time writer and work from home. In the past, I've had to use AT&T because there was no alternative and they are horrendous. Their service is terrible. Their customer service is cumbersome and ineffective. In addition, they overcharged me by more than a thousand dollars and it took months to get a refund. Sonic customer service is locally based, friendly and superb. The company was founded by a local young man in his dorm room at our junior college. Please follow the American spirit and allow Sonic and other similar companies to thrive.
